Weather & Safety Policy

At **Safe Road Driving Academy (SRDA)**, the safety of our students and instructors is our highest priority. To ensure a secure learning environment, we have established the following policy regarding adverse weather and road conditions:

- **Academy Cancellations:** SRDA reserves the right to cancel any scheduled classroom session or behind-the-wheel driving appointment due to severe weather conditions or state-issued travel advisories.
- **Instructor Discretion:** Because weather and road conditions can vary significantly by location, individual instructors have the authority to cancel or postpone their specific driving sessions if they determine that conditions in their immediate area are unsafe.
- **Rescheduling Responsibility:** In the event of a weather-related cancellation, it is the **responsibility of the student** to log into their [online account](#) and reschedule their missed session.
- **Our Commitment:** SRDA is committed to student progress. We will make every effort to open additional session availability to accommodate students affected by weather-related disruptions as quickly as possible.

If you have any questions or concerns regarding this, or any Safe Road Driving Academy policy, you may contact our office and someone will be able to assist you.
